

Jesus Lives Here

I have witnessed Nativity's youth centered programs influence countless of our children. It is evident in an instant gathered together on Sundays or at camp; children in ministry together and with adults loving one another as God asks. I have witnessed profound life-long impact these programs have. Many of the youth I've known are now adults...some with children of their own. Who they are, deep in their being, are children of Nativity...beautifully nurtured toward compassion, kindness, consideration, acceptance, love, Christ. By how they live, God's word is evident. That is how I see people and programs of Nativity changing lives for Christ.
